**Critical Approaches to the Study of Higher Education** May 20 2022 An essential guide to incorporating critical research into higher education scholarship. Winner of the Outstanding Publication Award of the Post-secondary Education Division of the American Educational Research Association Critical theory has much to teach us about higher education. By linking critical models, methods, and research tools with an advocacy-driven vision of the central challenges facing postsecondary researchers and staff, *Critical Approaches to the Study of Higher Education* makes a significant—and long overdue—contribution to the development of the field. The contributors argue that, far from being overly abstract, critical tools and methods are central to contemporary scholarship and can have practical policy implications when brought to the study of higher education. They argue that critical research design and critical theories help scholars see beyond the normative models and frameworks that have long limited our understanding of students, faculty, institutions, the organization and governance of higher education, and the policies that shape the postsecondary arena. A rigorous and invaluable guide for researchers seeking innovative approaches to higher education and the morass of traditionally functionalist, rational, and neoliberal thinking that mars the field, this book is also essential for instructors who wish to incorporate the lessons of critical scholarship into their course development, curriculum, and pedagogy.

**Critical Approaches to Care** Jul 10 2021 Care shapes people's everyday lives and relationships and caring relations and practices influence the economies of different societies. This interdisciplinary book takes a nuanced and context-sensitive approach to exploring caring relationships, identities and practices within and across a variety of cultural, familial, geographical and institutional arenas.

**A Handbook of Critical Approaches to Literature** Jul 22 2022 For over twenty-five years a favorite of instructors and students around the world, this comprehensive guide to the major critical approaches to literature has been thoroughly revised to reflect the explosion of critical theories and the radical expansion and revision of the literary canon that have taken place in recent decades. Two entirely new chapters cover feminist approaches and structuralism and poststructuralism, and there are substantial new sections on recent neo-Marxist theories, dialogics, hermeneutics, the new historicism, and reader-response criticism. In addition, bibliographic references have been updated and expanded throughout. Combining the best features of competing texts, the Handbook not only defines and outlines the development of all the major critical-interpretive perspectives, with copious references to the most important and influential sources, but offers detailed practical applications of the various approaches to the same four literary works—a unique feature that gives students both a dramatic demonstration of the strengths of each approach and a memorable set of models for the interpretation of other literary works. Organized for flexibility, the Handbook can be taught as a continuous unit or adapted to fit courses organized by genre, and is equally successful as an introductory survey for beginning students and as a reference and bibliographic guide for graduates. Offering a practical yet scholarly blend of applied criticism and pedagogy in an engaging style

and an accessible format, this new edition of the Handbook is an invaluable companion for today's students of literature and literary criticism.

[Routledge International Handbook of Critical Mental Health](#) Mar 26 2020 The Routledge International Handbook of Critical Mental Health offers the most comprehensive collection of theoretical and applied writings to date with which students, scholars, researchers and practitioners within the social and health sciences can systematically problematise the practices, priorities and knowledge base of the Western system of mental health. With the continuing contested nature of psychiatric discourse and the work of psych-professionals, this book is a timely return to theorising the business of mental health as a social, economic, political and cultural project: one which necessarily involves the consideration of wider societal and structural dynamics including labelling and deviance, ideological and social control, professional power, consumption, capital, neoliberalism and self-governance. Featuring original essays from some of the most established international scholars in the area, the Handbook discusses and provides updates on critical theories of mental health from labelling, social constructionism, antipsychiatry, Foucauldian and Marxist approaches to critical feminist, race and queer theory, critical realism, critical cultural theory and mad studies. Over six substantive sections, the collection additionally demonstrates the application of such theoretical ideas and scholarship to key topics including medicalisation and pharmaceuticalisation, the DSM, global psychiatry, critical histories of mental health, and talk therapy. Bringing together the latest theoretical work and empirical case studies from the US, the UK, Australia, New Zealand, Europe and Canada, the Routledge International Handbook of Critical Mental Health demonstrates the continuing need to think critically about mental health and illness, and will be an essential resource for all who study or work in the field.

*Writing Fiction* Oct 21 2019 Exploring writing as a practice, Boulter draws from the work of writers and theorists to show how cultural and literary debates can help writers enhance their own fiction. Negotiating the creative-critical crossover, this is an approachable book that helps students develop practical writing skills and a critical awareness of creative possibilities.

**Critical Approaches to Literature** Oct 13 2021

**Film Studies** Dec 03 2020 This is a guide to the study of film, covering the significant theories, debates and approaches to the subject. Contributors provide an overview of the main disciplinary approaches, explaining the concepts and methods involved in film analysis.

*Writing for the Screen* Aug 31 2020 This revised and refreshed edition guides the contemporary screenwriter through a variety of creative and critical approaches to a deeper understanding of how to tell stories for the screen. With a renewed focus on theme and structure, the book is an essential guide for writers, script developers and teachers to help develop ideas into rich dynamic projects, and craft compelling, resonating screenplays. Combining creative tools and approaches with critical and contextual underpinnings, the book is ideal for screenwriting students who are looking to expand their skills and

reflect on practices to add greater depth to their scripts. It will also inspire experienced writers and developers to find fresh ways of working and consider how new technology is affecting storytelling voices. Comprehensive and engaging, this book considers key narrative questions of today and offers a range of exercises to address them. Integrating creative guidance with rigorous scholarship, this is the perfect companion for undergraduate students taking courses in screenwriting. Encouraging and pragmatic, it will provide a wealth of inspiration for those wishing to work in the industry or deepen their study of the practice. New to this Edition: - Refreshed and revised edition to meet the demands of contemporary screenwriting - New case studies, models, tools and approaches to writing for the screen - Updated areas of industry practice, including web series, transmedia, VR and long-form storytelling - Includes practical approaches and creative exercises that can be used in the classroom

**Critical Approaches to Comparative Education** Jul 18 2019 This book unites a dynamic group of scholars who examine linkages among local, national, and international levels of educational policy and practice. Utilizing multi-sited, ethnographic approaches, the essays explore vertical interactions across diverse levels of policy and practice while prompting horizontal comparisons across twelve sites in Africa, Europe, the Middle East, and the Americas. The vertical case studies focus on a range of topics, including participatory development, the politics of culture and language, neoliberal educational reforms, and education in post-conflict settings. Editors Vavrus and Bartlett contribute to comparative theory and practice by demonstrating the advantages of thinking vertically.

**Critical Approaches to International Criminal Law** Feb 05 2021 Drawing on the critical legal tradition, the collection of international scholars gathered in this volume analyse the complicities and limitations of International Criminal Law. This area of law has recently experienced a significant surge in scholarship and public debate; individual criminal accountability is now firmly entrenched in both international law and the international consciousness as a necessary mechanism of responsibility. Critical Approaches to International Criminal Law: An Introduction shifts the debate towards that which has so far been missing from the mainstream discussion: the possible injustices, exclusions, and biases of International Criminal Law. This collection of essays is the first dedicated to the topic of critical approaches to international criminal law. It will be a valuable resource for scholars and students of international criminal law, international law, international legal theory, criminal law, and criminology.

**Critical Approaches to Life Writing Methods in Qualitative Research** Nov 02 2020 Life writing projects have become part of the expanding field of qualitative research methods in recent years and advances in critical approaches are reshaping methodological pathways. Critical Approaches to Life Writing Methods in Qualitative Research gives researchers and students looking for a brief compendium to guide their methodological thinking a concise and working overview of how to approach and carry out different forms of life writing. This practical book re-invigorates the conversation about the possibilities and innovative directions qualitative researchers can take when engaged in various forms of life writing, such as biography, autobiography, autoethnography, life history, and oral history. It equips the reader with the tools to carry out life writing projects from start to finish, including choosing a topic or subject, examining lives as living data, understanding the role of documents and artifacts, learning to tell the story, and finally writing/performing/displaying through the voice of the life writer. The authors also address the ways a researcher can begin a project, work through the issues they might face along the journey, and arrive at a shareable product. With its focus on the plurality of life writing methodologies, Critical Approaches to Life Writing Methods in Qualitative Research occupies a distinct place in qualitative research scholarship and offers practical exercises to guide the researcher. Examples include exploring authorial voice, practical applications of reflexivity exercises, the relationship between the narrator and participants, navigating the use of public and private archives, understanding the processes of collaborative inquiry and collaborative writing, and writing for various audiences.

**A Handbook of Critical Approaches to Literature** Jun 21 2022 Using classic works such as To His Coy Mistress, Hamlet, Huckleberry Finn, Young Goodman Brown, Everyday Use, and Frankenstein as tools to introduce students to various critical theories, this book demonstrates how different approaches to an array of readings enrich the total response to and understanding of the individual work.

**Critical Approaches to Education Policy Analysis** Sep 12 2021 This volume informs the growing number of

**Where To Download A Handbook Of Critical Approaches To Literature Wilfred L Guerin**  
**Free Download Pdf**

educational policy scholars on the use of critical theoretical frameworks in their analyses. It offers insights on which theories are appropriate within the area of critical educational policy research and how theory and method interact and are applied in critical policy analyses. Highlighting how different critical theoretical frameworks are used in educational policy research to reshape and redefine the way scholars approach the field, the volume offers work by emerging and senior scholars in the field of educational policy who apply critical frameworks to their research. The chapters examine a wide range of current educational policy topics through different critical theoretical lenses, including critical race theory, critical discourse analysis, postmodernism, feminist poststructuralism, critical theories related to LGBTQ issues, and advocacy approaches.

**The Cambridge Companion to Biblical Interpretation** Mar 06 2021 This guide to the state of biblical studies features 20 chapters written by scholars from North America and Britain, and represents both traditional and contemporary points of view.

**Critical Approaches to Young Adult Literature** Jun 28 2020 Explores various facets of creating a vibrant YA reading community such as inquiry-based learning, promoting and motivating reading, collection management, understanding multiple intelligences, accepting diverse beliefs, and acting as a change agent to name a few.

**Media/cultural Studies** Apr 07 2021 This anthology is designed to assist teachers and students in learning how to better understand and interpret our common culture and everyday life. With a focus on contemporary media, consumer, and digital culture, this book combines classic and original writings by both leading and rising scholars in the field. The chapters present key theories, concepts, and methodologies of critical cultural and media studies, as well as cutting-edge research into new media. Sections on teaching media/cultural studies and concrete case studies provide practical examples that illuminate contemporary culture, ranging from new forms of digital media and consumer culture to artifacts from TV and film, including Barbie and Big Macs, soap operas, Talk TV, Facebook, and YouTube. The lively articles show that media/cultural studies is an exciting and relevant arena, and this text should enable students and citizens to become informed readers and critics of their culture and society.

**Critical Approaches to Food in Children's Literature** Apr 19 2022 Critical Approaches to Food in Children's Literature is the first scholarly volume on the topic, connecting children's literature to the burgeoning discipline of food studies. Following the lead of historians like Mark Kurlansky, Jeffrey Pilcher and Massimo Montanari, who use food as a fundamental node for understanding history, the essays in this volume present food as a multivalent signifier in children's literature, and make a strong argument for its central place in literature and literary theory. Written by some of the most respected scholars in the field, the essays between these covers tackle texts from the nineteenth century (Rudyard Kipling's Kim) to the contemporary (Dave Pilkey's Captain Underpants series), the U.S. multicultural (Asian-American) to the international (Ireland, Brazil, Mexico). Spanning genres such as picture books, chapter books, popular media, and children's cookbooks, contributors utilize a variety of approaches, including archival research, cultural studies, formalism, gender studies, post-colonialism, post-structuralism, race studies, structuralism, and theology. Innovative and wide-ranging, Critical Approaches to Food in Children's Literature provides us with a critical opportunity to puzzle out the significance of food in children's literature.

**Critical Approaches to Science and Philosophy** Nov 14 2021 This collection of essays, written on four continents by scientists, philosophers and humanists, was initially presented to Karl R. Popper on his sixtieth birthday as a token of critical admiration and in recognition of his work. But the volume also stands on its own as a remarkable series of statements utilizing Popper's critical vision in the study of philosophy proper, logic, mathematics, science as method and theory, and finally to the study of society and history. What is remarkable is that Popper worked in all of these areas, not in a cursory or discursive way, but with the utmost clarity and rigor. . The core position of this volume and its contributors is that the progress of knowledge is not a linear accumulation of definitive acquisitions but a zigzagging process in which counterexamples and unfavorable evidence ruin generalizations and prompt the invention of more comprehensive and sometimes deeper generalizations, to be criticized in their turn. A critical approach to problems, procedures, and results in every field of inquiry is therefore a necessary condition for the

continuance of progress. The title of this volume then is, in a sense, an homage to Popper's critical rationalism and critical empiricism. The essays are a tribute to his unceasing and uncompromising quest, not for final certainty, but for closer truth and increased clarity. Among the contributors are outstanding figures in philosophy and the exact sciences in their own right, including Herbert Feigl, R. M. Hare, J.O. Wisdom, Nicholas Rescher, David Bohm, Paul K. Feyerabend, F. A. Hayek, and Adolf Grunbaum. Social science contributions include Hans Albert on social science and moral philosophy, W. B. Gallie, on the critical philosophy of history, Pieter Geyl on The Open Society and its Enemies, and George H. Nadel on the philosophy of History.

**How to Read Texts** Jan 24 2020 Now covering multi-media texts and practical advice on essay-writing and independent research, this is an essential guide to critical reading at university level

**Critical Approaches Toward a Cosmopolitan Education** Apr 26 2020 This book aims to reconceptualize teaching and learning in spaces with diverse populations of young people. Chapters focus on the schooling experiences and social and cultural adaptation issues of individuals who, through the meaning that they assign to their lived experiences, ascribe to multiple identity qualifiers. Contributors explore the impact of this cosmopolitan awareness on students, educators, and educational institutions, presenting issues such as curricular concerns around civic engagement, individual subjectivity versus social identity, and the convergence of context-specific policy and teaching environments on global dynamics in education reform. An emphasis on this understanding promises to better equip educators and policy-makers to plan instructional approaches and devise pedagogic resources that serve the needs and career aspirations of an expanding cohort of multifaceted learners.

**Foundations of Qualitative Research** Sep 19 2019 Foundations of Qualitative Research introduces key theoretical and epistemological concepts replete with historical and current real-world examples. Author Jerry W. Willis provides an invaluable resource to guide the critical and qualitative inquiry process written in an accessible and non-intimidating style that brings these otherwise difficult concepts to life.

*Studying Leadership* Jan 04 2021 This innovative new text will guide students of leadership through the past, current and future of the discipline. It goes beyond the standard topics covered in existing texts to introduce some exciting new themes such as authenticity, toxicity, followership, gender, diversity, arts, aesthetics, language, identity, ethics and sustainability. This makes for a fascinating read, and allows for a more holistic and deeper understanding of the field. A range of in-text features have been developed to enhance your learning experience including boxes highlighting key debates and encouraging critical analysis, 6 long integrative case studies and numerous vignettes to help you apply theory to practice, over 140 reflective questions to test your understanding as well as further reading lists. Visit the book's website [www.sagepub.co.uk/studyleadership](http://www.sagepub.co.uk/studyleadership) to access to related SAGE journal articles, video links and more. Electronic inspection copies are available for instructors.

**Rhetorical and Critical Approaches to Public Relations II** May 28 2020 This volume is the first to illustrate the application of rhetorical theory and critical perspectives to explain public relations practices. It provides a systematic and coherent statement of the critical guidelines and philosophical underpinnings of public relations and as such should guide pedagogy and practice. It also supplies pedagogic and critical standards with which to meet the needs of an increasingly sophisticated society that tends to reject all of public relations as propaganda. With the enormous amount of money spent on product publicity and public policy debates, this book gives practitioners a sense of whether their public relations campaigns make a contribution to the organizational bottom line by means of achieving the timeless standards of the art of rhetoric.

*Critical Approaches to Women and Gender in Higher Education* Jul 30 2020 This volume provides a critical examination of the status of women and gender in higher education today. Despite the increasing numbers of women in higher education, gendered structures continue to hinder women's advancement in academia. This book goes beyond the numbers to examine the issues facing those members of academia with non-dominant gender identities. The authors analyze higher education structures from a range of perspectives and offer recommendations at individual and institutional levels to encourage activism and advance equality in academia.

**On Creative Writing** Dec 15 2021 What is Creative Writing? Millions of people do it, but how do we do it,

*Where To Download A Handbook Of Critical Approaches To Literature Wilfred L Guerin*  
[Free Download Pdf](#)

really? What evidence of its human undertaking does Creative Writing produce? How do we explore Creative Writing, as both an art form and a mode of communication? How do we come to understand Creative Writing, creatively and critically? Posing questions about the nature of Creative Writing, *On Creative Writing* asks us to consider what Creative Writing actually is, and in doing so encourages us to reflect on how our knowledge of Creative Writing can be increased. Emphasizing Creative Writing as an act and actions, *On Creative Writing* considers what lies at the core of the activity called Creative Writing. *Critical Approaches to Fieldwork* Mar 18 2022 This work takes as its starting point the role of fieldwork and how this has changed over the past 150 years. The author argues against progressive accounts of fieldwork and instead places it in its broader intellectual context to critically examine the relationship between theoretical paradigms and everyday archaeological practice. In providing a much-needed historical and critical evaluation of current practice in archaeology, this book opens up a topic of debate which affects all archaeologists, whatever their particular interests.

**Critical Approaches to Information Retrieval Research** Feb 23 2020 Information retrieval (IR) is considered to be the science of searching for information from a variety of information sources related to texts, images, sounds, or multimedia. With the rise of the internet and digital databases, updated information retrieval methodologies are essential to ensure the continued facilitation and enhancement of information exchange. *Critical Approaches to Information Retrieval Research* is a critical scholarly publication that provides multidisciplinary examinations of theoretical innovations and methods in information retrieval technologies including search and storage applications for data, text, image, sound, document, and video retrieval. Featuring a wide range of topics including data mining, machine learning, and ontology, this book is ideal for librarians, software engineers, data scientists, professionals, researchers, information engineers, scientists, practitioners, and academicians working in the fields of computer science, information technology, information and communication sciences, education, health, library, and more.

**Critical Approaches to Creative Writing** Oct 25 2022 What is creative writing? In *Critical Approaches to Creative Writing*, Graeme Harper draws on both creative and critical knowledge to look at what creative writing is, and how it can be better understood. Harper explores how to critically consider creative writing in progress, while also tutoring the reader on how to improve their own final results. Throughout the book, Harper explains the nature of 'creative exposition', where creative writing is closely and directly examined in practice as well as through its final results. This book aims to empower you to develop your own critical approaches so that you can consider any creative writing situations you face, develop creative exposition that can be applied to writing problems, provide you with more creative choices and assist you in building your creative writing strengths.

*Heritage* Jan 16 2022 Historic sites, memorials, national parks, museumsewe live in an age in which heritage is ever-present. But what does it mean to live amongst the spectral traces of the past, the heterogeneous piling up of historic materials in the present? How did heritage grow from the concern of a handful of enthusiasts and specialists in one part of the world to something which is considered to be universally cherished? And what concepts and approaches are necessary to understanding this global obsession? Over the decades, since the adoption of the World Heritage Convention, various e~crise(tm) of definition have significantly influenced the ways in which heritage is classified, perceived and managed in contemporary global societies. Taking an interdisciplinary approach to the many tangible and intangible e~thingse(tm) now defined as heritage, this book attempts simultaneously to account for this global phenomenon and the industry which has grown up around it, as well as to develop a e~toolkit of conceptse(tm) with which it might be studied. In doing so, it provides a critical account of the emergence of heritage studies as an interdisciplinary field of academic study. This is presented as part of a broader examination of the function of heritage in late modern societies, with a particular focus on the changes which have resulted from the globalisation of heritage during the late twentieth and early twenty-first centuries. Developing new theoretical approaches and innovative models for more dialogically democratic heritage decision making processes, *Heritage: Critical Approaches* unravels the relationship between heritage and the experience of late modernity, whilst reorienting heritage so that it might be more productively connected with other pressing social, economic, political and environmental issues of our time.

**Advertising** Feb 17 2022 Advertising: Critical Approaches explores a broad range of critical theories and perspectives to shed new light on the organisation, workings and effects of the advertising industry today. Chris Wharton presents the social, cultural and economic role of advertising across history, with chapters tracking the process of advertising from production to reception. Split into three sections covering Foundations, Frameworks and Applications, the book's chapters explore a range of areas central to an insight into the development of modern advertising, including: advertising history cultural, critical and political economy approaches to advertising texts in advertising the reception of advertising advertising in the home and outdoor advertising consumer culture. Case studies explore the diversity in the uses of advertising throughout history, from Ostia and the Square of the Corporations in the ancient Roman world to the UK Border Agency's 'Go Home' campaign and contemporary City branding throughout Europe. Assessing the impact of the works of key critical thinkers including Marx, Morris, Lyotard, Barthes, Saussure, Williams and Hall have had on our understanding of consumption and advertising's societal impact, Advertising: Critical Approaches illuminates and enhances our understanding and engagement with one of the most vital cultural and economic forces in contemporary society.

**Critical Approaches to Security** Sep 24 2022 Focusing on critical approaches to security, this new textbook offers readers both an overview of the key theoretical perspectives and a variety of methodological techniques. With a careful explication of core concepts in each chapter and an introduction that traces the development of critical approaches to security, this textbook will encourage all those who engage with it to develop a curiosity about the study and practices of security politics. Challenging the assumptions of conventional theories and approaches, unsettling that which was previously taken for granted - these are among the ways in which such a curiosity works. Through its attention to the fact that, and the ways in which, security matters in global politics, this work will both pioneer new ways of studying security and acknowledge the noteworthy scholarship without which it could not have been thought. This textbook will be essential reading to advanced undergraduate and postgraduate students of critical security studies, and highly recommended to students of traditional security studies, International Relations and Politics.

**Community Resilience** Oct 01 2020 This book provides an alternative perspective on community resilience, drawing on critical sociological and social policy insights about how people individually and collectively cope with different kinds of adversity. Based on the idea that resilience is more than simply an invention of neoliberal governments, this book explores diverse expressions of resilience and considers what supports and undermines people's resilience in different contexts. Focusing on the United Kingdom, it examines the contradictions and limitations of neoliberal resilience policies and the role of policy in shaping how vulnerabilities are distributed and how resilience is manifested. The book explores different types of resilience including planning, response, recovery, adaptation and transformation, which are examined in relation to different types of threat such as financial hardship, disasters and climate change. It argues that resilience cannot act as an antidote to vulnerability, and aims to demonstrate the importance of shared institutions in underpinning resilience and in preventing socially created vulnerabilities. It will be of interest to academics, students and well-informed practitioners working with the concept of resilience within the subject areas of Sociology, Social Policy, Human Geography, Environmental Humanities and International Development.

**Critical Approaches to International Security** Dec 23 2019 During the Cold War the concept of international security was understood in military terms as the threat or use of force by states. The end of East-West hostilities, however, brought 'critical' perspectives to the fore as scholars sought to explain the emergence of new challenges to international stability, such as environmental degradation, immigration and terrorism. The second edition of this popular and highly respected text offers a wide-ranging and comprehensive analysis of the growing field of critical security studies. All the chapters have been fully revised and updated to map the on-going evolution of debates about international security since 1989, including the more recent shift in emphasis from critiques of the realist practices of states to those of global liberal governance. Topics covered include the relationship between security and change, identity, the production of danger, fear and trauma, human insecurity and emancipation. The book explores the meaning and use of these concepts and their relevance to real-life situations ranging from the War on Terror to the Arab Spring, migration, suffering in war, failed states and state-building, and the changing landscape of the

international system, with the emergence of a multipolar world and the escalation of global climate change. Written with verve and clarity and incorporating new seminar activities and questions for class discussion, this book will be an invaluable resource for students of international relations and security studies.

**English Literature** Jun 16 2019 This book, which presents the whole splendid history of English literature from Anglo-Saxon times to the close of the Victorian Era, has three specific aims. It is an useful and interesting guide for the students as well as teachers of English literature, specially European and American.

**The Long Take** Nov 21 2019 This is the first book in English exclusively devoted to the long take, one of the key elements of film style. Increasingly visible in contemporary international media, the long take currently attracts a good deal of attention in criticism and commentary. There are also significant strands of film theory in which duration has become a recurrent concern. In keeping with the approach of Palgrave Close Readings in Film and Television, this collection is devoted to the detailed critical analysis of specific long takes, explored in terms of how they function within their contexts, how they shape the visual field, the meanings they generate and the effects they create. The Long Take: Critical Approaches brings together essays by established and emerging scholars (all but one essay commissioned for this volume) in an exciting collection that analyses works from a range of filmmaking traditions, from the 1930s to the present day, selected to represent varied long take practices and to explore associated debates.

**Critical Approaches to Literature** Aug 23 2022 Provides a collection of essays that concern multicultural approaches to literary criticism.

**A Critical Approach to Climate Change Adaptation** Aug 19 2019 This edited volume brings together critical research on climate change adaptation discourses, policies, and practices from a multi-disciplinary perspective. Drawing on examples from countries including Colombia, Mexico, Canada, Germany, Russia, Tanzania, Indonesia, and the Pacific Islands, the chapters describe how adaptation measures are interpreted, transformed, and implemented at grassroots level and how these measures are changing or interfering with power relations, legal pluralism and local (ecological) knowledge. As a whole, the book challenges established perspectives of climate change adaptation by taking into account issues of cultural diversity, environmental justice and human rights, as well as feminist or intersectional approaches. This innovative approach allows for analyses of the new configurations of knowledge and power that are evolving in the name of climate change adaptation. This volume will be of great interest to students and scholars of climate change, environmental law and policy, and environmental sociology, and to policymakers and practitioners working in the field of climate change adaptation.

**Critical Approaches to Questions in Qualitative Research** Aug 11 2021 Learning how to formulate questions that examine the power relations between the researcher and participants is at the heart of critical approaches. This book provides a comprehensive overview and treatment of critical approaches to questions in qualitative research. It also examines questions as tools for strategic thinking and decision making at all stages of the qualitative research process. Written using examples from research and teaching, it situates constructing and formulating questions as a critical aspect of qualitative research that encourages learning to interrogate, and inquire, against the grain. The authors illustrate the ways in which different research questions necessitate different methodological choices, framing questions for research, interviewing, and analysis—suggesting some questions that can guide the writing process. With exercises, sample questions, and outlines for planning research, this book assists qualitative researchers with creating more effective questions, including formulating questions to guide reflexivity meant to confront prevailing assumptions and therefore dismantle and uncover omissions and invisibilities. This book stands out among other qualitative research methods books in its focus on critical approaches to questions as the driver of the research imagination. Utilising a number of examples, there is also a focused discussion of how to arrive at research questions, align interview questions with those research questions, actively construct questions to guide the data analysis process, and use further types of questions to guide the writing process. The examples the authors employ include questions drawn from qualitative approaches to phenomenology, ethnography, life writing, feminist research, and participatory action research.

**Critical Approaches to Comics** Jun 09 2021 Critical Approaches to Comics offers students a deeper understanding of the artistic and cultural significance of comic books and graphic novels by introducing key theories and critical methods for analyzing comics. Each chapter explains and then demonstrates a critical

method or approach, which students can then apply to interrogate and critique the meanings and forms of comic books, graphic novels, and other sequential art. The authors introduce a wide range of critical perspectives on comics, including fandom, genre, intertextuality, adaptation, gender, narrative, formalism, visual culture, and much more. As the first comprehensive introduction to critical methods for studying comics, *Critical Approaches to Comics* is the ideal textbook for a variety of courses in comics studies. Contributors: Henry Jenkins, David Berona, Joseph Witek, Randy Duncan, Marc Singer, Pascal Lefevre, Andrei Molotiu, Jeff McLaughlin, Amy Kiste Nyberg, Christopher Murray, Mark Rogers, Ian Gordon, Stanford Carpenter, Matthew J. Smith, Brad J. Ricca, Peter Coogan, Leonard Rivas, Jennifer K. Stuller, Ana Merino, Mel Gibson, Jeffrey A. Brown, Brian Swafford

**Critical Approaches to Teaching the High School Novel** May 08 2021 This edited collection will turn a critical spotlight on the set of texts that has constituted the high school canon of literature for decades. By employing a set of fresh, vibrant critical lenses—such as youth studies and disabilities studies— that are often unfamiliar to advanced students and scholars of secondary English, this book provides divergent approaches to traditional readings and pedagogical practices surrounding these familiar works. By introducing and applying these interpretive frames to the field of secondary English education, this book demonstrates that there is more to say about these texts, ways to productively problematize them, and to reconfigure how they may be read and used in the classroom.
