Getting Great Guitar Sounds Aug 02 2020 The first edition of Getting Great Guitar Sounds has helped thousands of guitarists get a basic handle on shaping their sound. This second edition had been expanded to cover modern multi-effectors, amp simulators, and advanced effect rigs in the same easy-to-understand language. To make getting started even simpler, Ross now lists his favorite effects and tells why they will provide most of the sounds guitarists will need.

Square Rigger Days Jul 21 2019 There are few books that describe accurately life on board sailing ships in the last days of sail, from the 1860s to the First World War; the romantic image conjured up by many who wrote from a safe distance belies the harsh realities which were a sailorman's lot. Domville-Fife, in collecting together the personal stories of seamen while they were still alive, was able to present a truer picture of the tough last days of sail. Long voyages on board nineteenth-century sailing ships were marked by isolation, boredom, and miserable living conditions that taxed the endurance of men already hard pressed by the gruelling and dangerous nature of shipboard work. While some were attracted to a life of adventure most simply went to sea for a living, and a meagre one at that. They experienced neither the excitement of life on the crack clippers of the earlier decades nor the safety of the steamships; they were caught in the limbo of a dying profession where poor pay, discontinuous employment, prolonged isolation from family and physical hardship were the norm. No wonder that murder, mutiny, starvation and shipwreck appear in the memoirs gathered here. Domville-Fife surely did future generations a great service by piecing together this reality. First published in 1938, these memoirs are now available again in this superbly presented new edition with a new selection of stunning photographs and a fascinating introduction on life at sea in the dying world of sail. A wonderful read for all enthusiasts and historians of the merchant service in the days of sail.

Radical Initiatives in Interventionist & Community Drama Jul 25 2022 This new series of cutting edge critical essays and articles in issues concerning Drama and Performance opens with Volume I, which will focus on issues of Interventionist Drama and related examples of Drama as Community. The list of contributors is impressive and quite consciously eclectic, ranging from established scholars such as Dr. Lionel Pilkington (University of Galway) through to the latest talent emerging in the field of theatre research such as Bill McDonnell (University of Sheffield) and Maureen Barry (Bretton Hall College, University of Leeds.) There is also a significant international dimension to Volume I with contributions from Carole Christensen (Copenhagen) and - (South Africa), with Velda Harris (Central School of Speech and Drama) offering a critical evaluation of her work with nomadic tribes people in Azerbaijan. As with the series as a whole, the focus for this first collection is a fusion of high-quality scholarly research with dynamic and perceptive accounts from practitioners in their field of work. Similarly this collection represents an eclectic mix of material that is absolutely contemporary and previously unpublished, offering a unique insight into some of the ideological, methodological and aesthetic issues surrounding the generic area of Interventionist and Community Theatre.

Amp'd Sep 27 2022 Set against a backdrop of aggressive rock, frenzied fans, moshing, stage diving, crowd surfing, security brutality, and occasional outright violence, *Amp'd: A Father's Backstage Pass* follows four years in the life of Gary Fincke's son, Aaron, a rock-and-roll guitarist. From bands such as Breaking Benjamin, Strangers With Candy, to Lifer, Fincke gives a unique perspective to the bizarre and fantastical world of commercial rock and roll.

Teachers Jul 01 2020 Inspirational and just plain fun, the words of celebrities, scholars, and comedians, coupled with the insight of students young and old, reveal teaching to be among the noblest of professions. *Teachers: Jokes, Quotes, and Anecdotes* is a reminder of the importance of teachers - and the tough job they have in training young minds . . . while keeping their wits about them.

Chronicles of Conan Volume 24: Blood Dawn and Other Stories Aug 14 2021 Conan, now a warlord of Koth, is sent by his jealous and spiteful king on a doomed foray into the territory of bloodthirsty Kushite marauders. But greater perils await as Conan and his men again encounter Imhotep, demon from beyond the stars, who seeks Conan's life and the enchanted amulet the barbarian carries. Collects *Conan the Barbarian #182-#189* and *Conan the Barbarian Annual #11*.

Directors & Designers Aug 26 2022 *Directors and Designers* explores the practice of scenography - the creation of perspective in the design and painting of stage scenery - and offers new insight into the working relationships of the people responsible for these theatrical transformations. With contributions from leading practitioners and theorists, editor Christine White describes the way in which the roles of director and designer have developed over time. Featuring chapters on theatre and site-specific performance, theatrical communication and aesthetics and the cognitive reception of design by the audience, this volume provides a valuable resource on current approaches to scenography for professionals and students.

Mr. Mkhize's Portrait & Other Stories from the New South Africa Mar 29 2020 "We met Mr. Mkhize in a migrant worker's hostel in a township outside Johannesburg, South Africa. He told us that he had been photographed twice before in his life. The first was for his Passbook, a document which allowed the apartheid government to control his movements. The second was for his ID book, which allowed him to vote in the country's first democratic elections. Ten years later we met him and took his picture." --Adam Broomberg & Oliver Chanarin Photographers Adam Broomberg and Oliver Chanarin were recently commissioned to return to their homeland of South Africa to document life there 10 years after the end of apartheid. For three months they traversed the country, examining the way people live, how they work, how they love, and how they die. Through their work we learn of individuals' aspirations and fears, such as Matapa Maila, a contestant in Miss

Teen South Africa who has no memory of apartheid; Mandlilenkosi Noqhayi, a circumcision initiate who is studying to become an accountant; and Mishack Masilela, a contestant at the Miss Gay Soweto competition, who wants to be able to marry the man that he loves. Threaded through these personal tales and glimpses of everyday life we gain an understanding of the wider issues facing South Africa today, such as the housing shortage, high unemployment, widespread violent crime, the impact of economic migrants, and, perhaps most significant of all, the widespread effect of the AIDS epidemic. But it is also a story of optimism and empowerment. After 10 years of freedom, South Africa has one of the most progressive constitutions in the world and the strongest economies in Africa. These photographs were recently displayed in Johannesburg at the new Constitutional Court, built on the site of The Fort, the infamous jail used by the apartheid government to imprison activists such as Ghandi and Mandela.

Quips, Quotes and Quanta May 23 2022 When a ship's surgeon during a routine episode of bloodletting noticed that the sailors' blood was brighter in the tropics than in the north, he hypothesized that heat was a form of energy. When a young boy tried to visualize what a beam of light would look like by riding alongside it at the same speed, he began thinking along lines that eventually changed our views of space and time. When a student caught hay fever and went to recover on Heligoland, he started a major revolution in physics. These are but just some of the stories covered in this entertaining book that deals with the history of physics from the end of the 19th-century to about 1930. *Quips, Quotes and Quanta* (2nd Edition) is unique in that it contains anecdotes on physicists creating new ideas. Often the thinking of the creators of what is now called "modern physics" is revealed through quotes. Thematic and biographical in nature, this book also includes many personal incidents. This second edition has been revised to include new material: a prologue, epilogue, glossary and chronology, and photographs as well as additional quotes and anecdotes.

The New Book of Opera Anecdotes Dec 06 2020 Building on the long-established success of Ethan Mordden's *Opera Anecdotes*, *The New Book of Opera Anecdotes* continues where the original left off, bringing into view the new corps of major singers that arose after the first book's publication in 1985 -- artists such as Renee Fleming, Roberto Alagna, Deborah Voigt, Jonas Kaufmann, Kathleen Battle, and Jane Eaglen (who tested her family with Turandot's three riddles and got a very original answer). There are also fresh adventures with opera's fabled great -- Rossini, Wagner, Toscanini (whose temper tantrums are always good for a story), Franco Corelli, Luciano Pavarotti, Leontyne Price (who, when the Met's Rudolf Bing offered her the voice-killing role of Abigaille in Verdi's *Nabucco*, said, "Man, are you crazy?"). Almost all the stories in *The New Book of Opera Anecdotes* are completely new, whether from the present or the past, taking in many historical developments, from the rise of the conductor to the appearance of the gymmed-up "bari-hunk" who refuses to play any role in which he can't appear shirtless. While most of Mordden's anecdotes are humorous, some are emotionally touching, such as one recounting a Met production

of Mozart's *The Marriage Of Figaro* in which Renee Fleming sang alongside her own six-year-old daughter. Other tales are suspenseful, as when Tito Gobbi shows off his ability to make anyone turn around simply by staring at his or her back. He tries it on Nazi monster Joseph Goebbels, who does turn around, and then starts to move toward Gobbi, seething with rage, step by step... Mordden recounts these stories in his own unique voice, amplifying events for reading pleasure and adding in background material so the opera newcomer can play on the same field as the aficionado. Witty, dramatic, and at times a little shocking, *The New Book Of Opera Anecdotes* will be a welcome addition to any opera fan's library.

Chronicles of Conan Volume 19: Deathmark and Other Stories Jan 27 2020 *The Chronicles of Conan Volume 19* collects "Deathmark," which mixes tattoos, severed arms, and a decades-old grudge into a gruesome mystery, and "Tower of Mitra," where a magically endowed beauty, seen in a previous Jones Conan story, returns to help defeat a demonic harpy. Writers Mary Jo Duffy, Alan Zelenetz, and Michael Fleisher also contribute oneshot stories to this collection, which finds Conan facing the Dragon of Solvanthia, numerous witches and wizards, rat demons, bloodthirsty swordsmen, and his own son by a priestess of the Cimmerian wilderness! * This volume collects Conan the Barbarian issues #143 to #150.

The Culture Map Sep 03 2020 An international business expert helps you understand and navigate cultural differences in this insightful and practical guide, perfect for both your work and personal life. Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact international business, and combines a smart analytical framework with practical, actionable advice.

Guitar Amps & Effects For Dummies Oct 04 2020 Learn the secrets to achieving your ultimate sound Whether amateur or pro, guitarists live for the ultimate sound. Guitar Amps & Effects For Dummies provides the information and instruction you need to discover that sound and make it your own! Written in the characteristically easy-to-read Dummies style, this book is ideal for beginners and experienced musicians alike, and can help all players expand their skill set with effects. Guitarists tend to be gearheads when it comes to sound, and this book provides guidance on topics ranging from the guitar itself to amps, pedals, and other sound technology. Amps and effects are the unsung heroes of guitar music. While most people recognize the more psychedelic effects, many don't realize that effects are often responsible for the unique quality of tone that can become a musician's trademark. Certain effects work on the volume or signal level, others work on the environment, and still others work on the bass and treble content. Guitar Amps & Effects For Dummies covers them all, and shows how effects can not only add something extra, but also "fix" problematic areas. Topics include: Gain-based effects, like distortion, compression, volume pedals, and gates Tone-based effects, including graphic and parametric EQ, and the wah-wah pedal Modulation effects, like the flanger, phase shifter, and tremolo Ambience effects, including reverb and delay The journey to incredible guitar music never ends. No matter how experienced you are with a guitar, there is always room for improvement to your tone and sound. Whether you're looking for the sound of angels or thunder, Guitar Amps & Effects For Dummies will help you achieve the music you hear in your dreams.

Goodbye My Love and Other Stories Oct 28 2022 There are two ways that a person can walk in this life. You can either walk into your blessing or walk into your curse. How can you do that? You can do that by doing things that are natural for you to do. Success at anything is not by chance or by luck. It is seeing things you have already been doing brought to fruition. Therefore, successful people are not surprised by their success. They actually knew it would happen before it happened. The blessing is the reward for a life of integrity and commitment to achieving goals and setting standards. What is the curse? It is all the negatives that we curse our lives with: the negative friends, the negative conversations, the negative situations. An unsuccessful person who continues to put himself or herself in those situations, in those conversations, and around those people will bring a curse to their lives that they will never be able to shake. I am grateful for the friends and the relationships that I have been blessed with in my life. They have helped me to overcome all the obstacles of life. And that is what any man needs, incarcerated or free--people who believe in him when no one else in the world does.

Amps! Mar 09 2021 (Book). Electric guitar players can choose from a library full of guitar books, but comparatively little has been written about the other 50% of the electric guitar: the amplifier. This book takes a giant step toward redressing the balance, providing the first overall view of amp-dom, including: how amps work, profiles of the major manufacturers, 'transistor dinosaurs' and their place in amp history, reissues vs. vintage amps, and troubleshooting. Terms are defined in the margin as they are introduced, and plenty of photos and diagrams illuminate the text.
