The Great Invasion of 1813-14 Jul 24 2022 If you would like to know the story of the Great Invasion of 1814, just as it was told me by the old huntsman, Frantz du Hengst, you must come with me to the village of Charmes, in that province of France called the Vosges. About thirty little houses, with stuccoed fronts, and their roofs covered with dark green moss, are dotted along the borders of the Sarre; you can see their gables round which the ivy creeps and the honeysuckle twines—the honeysuckle withered now, for winter is near—the beehives closed with wisps of straw, the little gardens, the wooden palings, the hedge-rows that divide them from each other.

[King of the World](#) Aug 21 2019 Winner of the Franco-British Society Book Prize 2019 'The ultimate biography of the Sun King' Simon Sebag Montefiore Louis XIV dominated his age. He extended France's frontiers into Netherlands and Germany, and established colonies overseas. The stupendous palace he built at Versailles became the envy of monarchs all over Europe. In his palaces, Louis encouraged dancing, hunting, music and gambling. He loved conversation, especially with women: the power of women in Louis's life and reign is a particular theme of this book. Louis was obsessed by the details of government but the cost of building palaces and waging continuous wars devastated the country's finances and helped set it on the path to revolution. Nevertheless, by his death, he had helped make his grandson king of Spain, where his descendants still reign, and France had taken essentially the shape it has today. King of the World is the most comprehensive and up-to-date biography of this hypnotic, flawed figure in English. It draws on all the latest research to paint a convincing and compelling portrait of a man who, three hundred years after his death, still epitomises the idea of le grand monarque.

Covid-19: The Great Reset Mar 28 2020 "The Corona crisis and the Need for a Great Reset" is a guide for anyone who wants to understand how COVID-19 disrupted our social and economic systems, and what changes will be needed to create a more inclusive, resilient and sustainable world going forward. Thierry Malleret, founder of the Monthly Barometer, and Klaus Schwab, founder and executive Chairman of the World Economic Forum, explore what the root causes of these crisis were, and why they lead to a need for a Great Reset. Theirs is a worrying, yet hopeful analysis. COVID-19 has created a great disruptive reset of our global social, economic, and political systems. But the power of human beings lies in being foresighted and having the ingenuity, at least to a certain extent, to take their destiny into their hands and to plan for a better future. This is the purpose of this book: to shake up and to show the deficiencies which were manifest in our global system, even before COVID broke out.

The Great Events of Global History, Vol. 14 May 22 2022 History, if we define it as the mere transcription of the written records of former generations, can go no farther back than the time such records were first made, no farther than the art of writing. But now that we have come to recognize the great earth itself as a story-book, as a keeper of records buried one beneath the other, confused and half obliterated, yet not wholly beyond our comprehension, now the historian may fairly be allowed to speak of a far earlier day. For unmeasured and immeasurable centuries man lived on earth a creature so little removed from "the beasts that die," so little superior to them, that he has left no clearer record than they of his presence here. From the dry bones of an extinct mammoth or a plesiosaur, Cuvier reconstructed the entire animal and described its habits and its home. So, too, looking on an ancient, strange, scarce human skull, dug from the deeper strata beneath our feet, anatomists tell us that the owner was a man indeed, but one little better than an ape. A few æons later this creature leaves among his bones chipped flints that narrow to a point; and the archæologist, taking up the tale, explains that man has become tool-using, he has become intelligent beyond all the other

animals of earth. Physically he is but a mite amid the beast monsters that surround him, but by value of his brain he conquers them. He has begun his career of mastery.

From Louis XIV to Napoleon Oct 27 2022 Much of the period 1661-1815 appeared to be the age of France. France was the greatest power in Western Europe in the late seventeenth and eighteenth centuries and Louis XIV and Napoleon seemed to dominate their periods. yet when Louis XIV died in 1715, and again after Napoleon's attempt to resume power was defeated at Waterloo a century later, France appeared as a waning power. This failure in Europe was matched on the world scale. France was overtaken by Britain in the struggle for maritime predominance, and ended the period with her empire in ruins. From Louis XIV to Napoleon is a scholarly yet accessible account which considers why France was not more successful and throws light on French history, international relations, warfare and the rise and fall of French power.
