A Book of the Beginnings Feb 08 2021 After enjoying years as a popular journalist and poet, intellectual and freethinker Gerald Massey turned his vast studies in the field of Egyptology into *A Book of the Beginnings*, a bold statement that the origin of all civilization lays in ancient Egypt. His assertions, radical at the time-indeed, almost a century before the discovery of three-million-year-old human remains in Africa-resonate loudly today, when molecular biology is making corresponding discoveries alongside the still-raging creation-versus-evolution controversy. In Volume II, Massey intelligently argues an Egyptian origin for Biblical symbology, lexicography, and mythology. Here, he not only asks if the oldest Jewish and Christian axioms were really born on the banks of the Nile, he offers a stalwart and profound

solution, explaining all key business school concepts through illustrations. When Barron started his MBA course, he decided to draw all his notes so that other people could benefit from them. And it's a good thing he did, because research shows that more than 65% of us are visual learners and that our brains process illustrations 60,000 times faster than text. From Marketing, Ethics and Accounting to Organisational Behaviour, Finance, Operations and Strategy, The Visual MBA distils the most important principles of an MBA into an accessible, informative and easily-digestible guide. Jason Barron is a product manager and illustrator who helps people realise their creative ideas through visual learning. He spent 516 hours in class and countless hours studying at home completing his MBA. Along the way, rather than taking notes that he would never read again, Jason created sketchnotes for each class and has turned them into an interesting and engaging resource so that you don't have to
