Speechless Nov 05 2020 Libby McLissac is known for two things: catching bridal bouquets (her record's an even dozen) and having a way with words. Since the former isn't really something that looks good on a résumé, it's helpful to have parlayed the latter into a new career as a political speechwriter. But just as she's making sure her boss looks as if she knows something about...well, anything, Libby's world is turned upside down. Enter a handsome British consultant—a bit on the cagey side, perhaps—who upsets the delicate chain of command around the office and somehow always gets what he wants. Including Libby? When a media leak of a big-time scandal sends everyone into a tailspin, Libby fears she may get caught in the cross fire. Cue the fake alliances, the secrets, the sex, the subterfuge, the hidden friendships: it's all there. Welcome to the world of politics, where perception is everything, nothing is as it seems and the last thing you want is to be left speechless.

Silent Invasion Jun 19 2019 In 2008 Clive Hamilton was at Parliament House in Canberra when the Beijing Olympic torch relay passed through. He watched in bewilderment as a small pro-Tibet protest was overrun by thousands of angry Chinese students. Where did they come from? Why were they so aggressive? And what gave them the right to shut down others exercising their democratic right to protest? The authorities did nothing about it, and what he saw stayed with him. In 2016 it was revealed that wealthy Chinese businessmen linked to the Chinese Communist Party had become the largest donors to both major political parties. Hamilton realised something big was happening, and decided to investigate the Chinese government's influence in Australia. What he found shocked him. From politics to culture, real estate to agriculture, universities to unions, and even in our primary schools, he uncovered compelling evidence of the Chinese Communist Party's infiltration of Australia. Sophisticated influence operations target Australia's elites, and parts of the large Chinese-Australian diaspora have been mobilised to buy access to politicians, limit academic freedom, intimidate critics, collect information for Chinese intelligence agencies, and protest in the streets against Australian government policy. It's no exaggeration to say the Chinese Communist Party and Australian democracy are on a collision course. The CCP is determined to win, while Australia looks the other way. Thoroughly researched and powerfully argued, *Silent Invasion* is a sobering examination of the mounting threats to democratic freedoms Australians have for too long taken for granted. Yes, China is important to our economic prosperity; but, Hamilton asks, how much is our sovereignty as a nation worth? 'Anyone keen to understand how China draws other countries into its sphere of influence should start with *Silent Invasion*. This is an important book for the future of Australia. But tug on the threads of China's influence networks in Australia and its global network of influence operations starts to unravel.'
—Professor John Fitzgerald, author of *Big White Lie: Chinese Australians in White Australia*

The COVID-19 Crisis Dec 06 2020 Since its emergence in early 2020, the COVID-19 crisis has affected every part of the world. Well beyond its health effects, the pandemic has wrought major changes in people's everyday lives as they confront restrictions imposed by physical distancing and consequences such as loss of work, working or learning from home and reduced contact with family and friends. This edited collection covers a diverse range of experiences, practices and representations across international contexts and cultures (UK, Europe, North America, South Africa, Australia and New Zealand). Together, these contributions offer a rich account of COVID society. They provide snapshots of what life was like for people in a variety of situations and locations living through the first months of the novel coronavirus crisis, including discussion not only of health-related experiences but also the impact on family, work, social life and leisure activities. The socio-material dimensions of quotidian practices are highlighted: death rituals, dating apps, online musical performances, fitness and exercise practices, the role of windows, healthcare work, parenting children learning at home, moving in public space as a blind person and many more diverse topics are explored. In doing so, the authors surface the feelings of strangeness and challenges to norms of practice that were part of many people's experiences, highlighting the profound affective responses that accompanied the disruption to usual cultural forms of sociality and ritual in the wake of the COVID outbreak and restrictions on movement. The authors show how social relationships and social institutions were suspended, re-invented or transformed while social differences were brought to the fore. At the macro level, the book includes localised and comparative analyses of political, health system and policy responses to the pandemic, and highlights the differences in representations and experiences of very different social groups, including people with disabilities, LGBTQI people, Dutch Muslim parents, healthcare workers in France and Australia, young adults living in northern Italy, performing artists and their audiences, exercisers in Australia and New Zealand, the Latin cultures of Spain and Italy, Asian-Americans and older people in Australia. This volume will appeal to undergraduates and postgraduates in sociology, cultural and media studies, medical humanities, anthropology, political science and cultural geography.

The Millionaire in the Pew Aug 02 2020 THE MILLIONAIRE IN THE PEW presents a new and unique approach to funding ministry and mission. Wilson asserts that there is untapped

wealth in the Church that could be harvested. He believes that clergy and religious leaders possess many of the qualities of highly successful professional fundraisers. He also believes that if they can overcome the "taboo" of dealing with money and fundraising, they can raise millions of dollars for the Church. The Millionaire in the Pew argues that fundraising is a very spiritual practice. Two phenomena are converging that make THE MILLIONAIRE IN THE PEW timely and critical. One is the current crisis in funding churches. The other is the so-called "Trillion-Dollar-Transfer." In the next decade or so, the Baby Boomers will be passing their assets in the billions, onto their offspring. The "Trillion-Dollar-Transfer" presents a huge opportunity for the Church. Clergy and religious leaders are in a unique position to take this unique opportunity to advance their churches. THE MILLIONAIRE IN THE PEW will: - change your attitudes toward money, wealth and wealthy people - teach you how to identify wealthy individuals - teach you how to educate and cultivate prospects - show you how to prepare effective verbal and written proposals - instruct you on how to make successful solicitation calls - increase your skills of persuasion to raise major gifts - introduce you to the mega potential for deferred gifts - empower you to harvest major and deferred gifts "Russ Wilson has given us a splendid gift in THE MILLIONAIRE IN THE PEW.... Russ presents both the 'why' and the 'how' of funding ministry today. You will be inspired to make major gift solicitations after reading the chapters that tell how to do it. If nothing else you will find outstanding source material in this volume. This book is a gem!" Dr. Wayne Barrett, Director, United Methodist Foundation of Michigan "I believe THE MILLIONAIRE IN THE PEW will make a significant contribution to the church by empowering pastors, denominational leaders, and church leaders to provide critical financial resources to continue and expand its ministries and missions." Bishop Julius Calvin Trimble, Resident Bishop, Iowa Conference of the United Methodist Church "THE MILLIONAIRE IN THE PEW will be a gift to clergy and congregations as they search for wisdom in fundraising amidst challenging economic times. This is a practical book outlining best practices for those faith-based institutions committed to pursuing a new level of excellence in stewardship. Russ Wilson brings together the wisdom gleaned from his years of experience for the benefit of pastors and lay leaders." Dr. Bill Enright, Director, The Lake Institute of Faith & Giving, Indiana University

The Structuring of Organizations Jul 21 2019 How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bureaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.
