The River Why Jun 21 2022 The classic novel of fly fishing and spirituality republished with a new Afterword by the author. Since its publication in 1983, *The River Why* has become a classic. David James Duncan's sweeping novel is a coming-of-age comedy about love, nature, and the quest for self-discovery, written in a voice as distinct and powerful as any in American letters. Gus Orviston is a young fly fisherman who leaves behind his comically schizoid family to find his own path. Taking refuge in a remote cabin, he sets out in pursuit of the Pacific Northwest's elusive steelhead. But what begins as a physical quarry becomes a spiritual one as his quest for self-knowledge batters him with unforeseeable experiences. Profoundly

Mar 06 2021 THE HEART OF THE MONSTER consists of a 130-page essay by David James Duncan and a 130-page novella by Rick Bass. Duncan's essay, entitled "The Heart of the Monster," is a protest of the plan by oil corporations and politicians to turn the Northwest's and Northern Rockies' rivers, roads and wilderness into a tentacle of the largest and most destructive petroleum project in history: the Alberta Tar Sands. Bass's novella, "A Short History of Montana, is a portrait of the backward evolution of a fictitious political figure as Big Oil and Big Energy's concepts of power begin to stew in his head and eat away his heart.

Times Book Review) and “beautiful” (Washington Post) debut novel *The Vexations* comes an exciting new story collection that is “perfect for fans of George Saunders and Karen Russell” (Booklist), moving boldly between the real and the surreal. A New York Times Book Review Editors’ Choice. Following her “marvelous” (Wall Street Journal) first novel, Caitlin Horrocks returns with a much-anticipated collection of short stories. In her signature, genre-defying style, she explodes our notions of what a story can do and where it can take us. *Life Among the Terranauts* demonstrates all the inventiveness that won admirers for Horrocks’s first collection. In “The Sleep,” reprinted in *Best American Short Stories*, residents of a town in the frigid Midwest decide to hibernate through the bitter winters. In the title story, half a dozen people move into an experimental biodome for a shot at a million dollars, if they can survive two years.

The New Yorker, a young woman meets her grandmother’s roommate in the wake of her death and attempts to solve the mystery of whether the two women were lovers. As the Boston Globe noted of her first collection, Horrocks is a master of “wild yet delicately handled satire,” a “sprightly heartbreak” in which she is able to “mingle a note of tenderness in the desolation.” With its startling range—from Norwegian trolls to Peruvian tour guides—*Life Among the Terranauts* once again dazzles readers, cementing Horrocks’s reputation as one of the premier young writers of our time.

depicts every harrowing second in eight hours of relentless terror. A New York Times bestseller, it received the prestigious Stoker Award from the Horror Writers Association. On a cold October night, five people gather in a run-down motel on the New Jersey shore and begin preparations to break in to the Paragon Hotel. Built in the glory days of Asbury Park by a reclusive millionaire, the magnificent structure—which foreshadowed the beauties of art-deco architecture—is now boarded up and marked for demolition. Discrepant Solace Aug 31 2020 Consolation has always played an uncomfortable part in the literary history of loss. But in recent decades its affective meanings and ethical implications have been recast by narratives that appear at first sight to foil solace altogether. Illuminating this striking archive, *Discrepant Solace* considers writers who engage with consolation not as an aesthetic salve but as an enduring problematic, one that unravels at the centre of emotionally challenging works of late twentieth- and twenty-first-century fiction and life-writing. The book understands solace as a generative yet conflicted aspect of style, where microelements of diction, rhythm, and syntax capture consolation's alternating desire

contestation. With a wide-angle lens on the contemporary scene, David James examines writers who are rarely considered in conversation, including Sonali Deraniyagala, Colson Whitehead, Cormac McCarthy, W.G. Sebald, Doris Lessing, Joan Didion, J. M. Coetzee, Marilynne Robinson, Julian Barnes, Helen Macdonald, Ian McEwan, Colm Tóibín, Kazuo Ishiguro, Denise Riley, and David Grossman. These figures overturn critical suppositions about consolation's kinship with ideological complaisance, superficial mitigation, or dubious distraction, producing unsettling perceptions of solace that shape the formal and political contours of their writing. Through intimate readings of novels and memoirs that explore seemingly indescribable experiences of grief, trauma, remorse, and dread, James demonstrates how they turn consolation into a condition of expressional possibility without ever promising us relief. Sentinel) is a must-read for any fiction lover. In each of the stories in this remarkable debut, Poissant explores the tenuous bonds of family—fathers and sons, husbands and wives—as they are tested by the sometimes brutal power of love. His strikingly true-to-life characters have reached a precipice, chased there by troubles of their own making. Standing at the brink, each must make a choice: Leap, or look away? Pulitzer Prize finalist Lee Martin writes that Poissant forces us "to face the people we are when we're alone in the dark." From two friends racing to save the life an alligator in "Lizard Man" to a girl helping her boyfriend face his greatest fears in "The End of Aaron," from a man who stalks death on an Atlanta street corner to a brother's surprise at the surreal, improbable beauty of a late night encounter with a wolf, Poissant creates worlds that shine with honesty and dark complexity, but also with a profound compassion. **Download**

are stories hell-bent on hope. Fresh, smart, lively, and wickedly funny, *The Heaven of Animals* is startlingly original and compulsively readable. As bestselling author Kevin Wilson puts it, "Poissant is a writer who knows us with such clarity that we wonder how he found his way so easily into our hearts and souls."

The Scapegoat Nov 21 2019 N is employed at a prestigious California university, where he has distinguished himself as an aloof and somewhat eccentric presence. His meticulous, ordered life is violently disrupted by the death of his estranged father-- unanticipated and, as it increasingly seems to N, surrounded by murky circumstances. After a chance meeting with a young doctor, N begins to have vivid, almost hallucinatory daydreams about the year he spent in Ottawa, and a shameful episode from his past. As a shadowy group of fringe academics becomes preoccupied with a grim chapter in California's history,

subsequently determined the shape of the twentieth century. Young Gavrilo Princip arrived at the Vljajnic pastry shop in Sarajevo in Bosnia-Herzegovina on the morning of 28 June 1914. He was greeted by his fellow conspirators in the plot to kill Archduke Franz Ferdinand. The Archduke, next in line to succeed as Emperor of Austria, was beginning a state visit to Sarajevo later that morning. Ferdinand was not a very popular character - widely thought of as bad-tempered and arrogant and perhaps even deranged. To the young students he embodied everything they loathed about imperial oppression. They planned to kill him at about 11 o'clock as he paraded down Appel Quay to the town hall in his open top car. What happened in those few hours - leading as it did to the First and Second World Wars - is as compelling as any thriller.

Journal The riveting true story of the largest polar rescue mission in history: the desperate race to find the survivors of the glamorous Arctic airship *Italia*, which crashed near the North Pole in 1928. Triumphant returning from the North Pole on May 24, 1928, the world-famous exploring airship *Italia*—code-named N-4—was struck by a terrible storm and crashed somewhere over the Arctic ice, triggering the largest polar rescue mission in history.

Helping lead the search was Roald Amundsen, the poles' greatest explorer, who himself soon went missing in the frozen wastes. Amundsen's body has never been found, the last victim of one of the Arctic's most enduring mysteries . . .

During the Roaring Twenties, zeppelin travel embodied the exuberant spirit of the age.

Germany's luxurious Graf Zeppelin would run passenger service from Germany to Brazil; Britain's Imperial Airship was launched to connect an empire; in America, the iconic spire of the

Empire State Building was designed as a docking tower for airships. But the novel mode of transport offered something else, too: a new frontier of exploration. Whereas previous Arctic and Antarctic explorers had subjected themselves to horrific—often deadly—conditions in their attempts to reach uncharted lands, airships held out the possibility of speedily soaring over the hazards. In 1926, the famed Norwegian explorer Roald Amundsen—the first man to reach the South Pole—partnered with the Italian airship designer General Umberto Nobile to pioneer flight over the North Pole. As Mark Piesing uncovers in this masterful account, while that mission was thought of as a great success, it was in fact riddled with near disasters and political pitfalls. In May 1928, his relationship with Amundsen corroded beyond the point of collaboration, Nobile, his dog, and a crew of fourteen Italians, one Swede, and one Czech, set

Italia to discover new lands in the Arctic Circle and to become the first airship to land men on the pole. But near the North Pole they hit a terrible storm and crashed onto the ice. Six crew members were never seen again; the injured (including Nobile) took refuge on ice flows, unprepared for the wretched conditions and with little hope for survival. Coincidentally, in Oslo a gathering of famous Arctic explorers had assembled for a celebration of the first successful flight from Alaska to Norway. Hearing of the accident, Amundsen set off on his own desperate attempt to find Nobile and his men. As the weeks passed and the largest international polar rescue expedition mobilized, the survivors engaged in a last-ditch struggle against weather, polar bears, and despair. When they were spotted at last, the search plane landed—but the pilot announced that there was room for only one passenger. . .

The Sleep of Reason Jul 10 2021 Friday, 12th February, 1993. Two outwardly unremarkable ten-year-old boys began the day by playing truant and ended it running an errand for the local video shop. In between they abducted and killed a two-year-old boy, James Bulger. In search of an explanation, award-winning journalist David James Smith looks behind the misinformation, misunderstanding and sensational reporting to an exact account of the events of that day. A sensitive and definitive account, *The Sleep of Reason* achieves a unique understanding of the James Bulger case, and comes as close as may ever be possible to explaining how two ten-year-olds could kill.
